Independent Auditor's Report

Board of Directors Clackamas Soil and Water Conservation District Clackamas County, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Clackamas Soil and Water Conservation District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Clackamas Soil and Water Conservation District, as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Richard Winkel, CPA

PO Box 91637 Portland, OR 97291

tel: (503) 332-6750 fax: (888) 739-8185 email: rwinkel@winkelcpa.com

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Clackamas Soil and Water Conservation District's basic financial statements. The budgetary comparison schedules and combining statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Oregon Revised Statutes

In accordance with Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 8, 2017 on our consideration of Clackamas Soil and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters including the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

Richard Winhel, CPA

MANAGEMENT'S DISCUSSION AND ANALYSIS

CLACKAMAS SOIL AND WATER CONSERVATION DISTRICT Management's Discussion and Analysis For the Year Ended June 30, 2017

Our discussion and analysis of Clackamas Soil and Water Conservation District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2017. Our purposes are to assist users of these financial statements to interpret the information found in the following pages, highlight the major factors and impacts on the District's financial situation, and to explain significant changes from last year to this year. Please read it in conjunction with the District's financial statements beginning on page 6.

FINANCIAL HIGHLIGHTS

- Revenues increased in 2017 by \$552,337. The majority of the change resulted from increased grant funding. Grant revenues increased by \$458,734 due to increased funding from PGE for various projects.
- Total expenditures increased by \$653,511, primarily related to increases in conservation projects and grants to landowners.
- The District's net position increased by \$141,145 during the year ended June 30, 2017.

OVERVIEW OF THE FINANCIAL STATEMENTS

The government-wide financial statements on pages 6 and 7 are designed to provide an overview of the District's finances. The statement of net position presents information regarding assets and liabilities, with the difference between the two reported as net position. Over time, the increases or decreases in net position may serve as an indicator of whether the financial position of the District is improving or deteriorating. The statement of activities presents information showing how the District's net assets changed during the year.

The fund financial statements on pages 8 through 11 focus on inflows and outflows of spendable resources, as well as balances of resources available at the end of the year for the District's funds. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate comparison with the government-wide financial statements.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental fund balances totaled \$1,974,066 at June 30, 2017. A summary of changes in governmental fund balances follows:

	Ju	ne 30, 2017	Jur	ne 30, 2016	Change
General fund	\$	1,470,692	\$	1,078,983	 91,709
Conservation grant fund		290,070		552,879	(262,809)
Conservation loan fund		178,740		-	178,740
Working lands legacy		31,433		57,686	(26,253)
Building reserve fund		3,131		94,536	 (91,405)
Total	\$	1,974,066	\$	1,784,084	\$ 189,982

In 2017 the General Fund revenues increased by \$626,722, approximately 27%, while expenditures increased by \$480,952, approximately 29%. The increase in revenues is due to grants from PGE of \$431,250 and increases in tax revenues of \$96,597. The increase in expenditures was for higher materials and services costs and personnel services, which increased \$285,289 and \$163,309, respectively.

CLACKAMAS SOIL AND WATER CONSERVATION DISTRICT Management's Discussion and Analysis For the Year Ended June 30, 2017

BUDGETARY HIGHLIGHTS

See the supplemental information for detailed schedules of budget to actual variances for the fiscal year ended June 30, 2017.

Revenues for the General Fund were \$2,712,146 which was \$3,223 under budget. Expenditures for the General Fund were \$1,802,555, which was \$175,039 under budget.

During the current year the District created a new fund, the Conservation Loan Fund, to focus on the landowner loan program.

CAPITAL ASSETS

At June 30, 2017 the District had \$735,595 invested in capital assets, net of accumulated depreciation. During the year ended June 30, 2017 the District purchased capital assets in the amount of \$28,769, by purchasing a vehicle. More detailed information about the District's capital assets is presented in the notes to the financial statements.

LONG-TERM DEBT

The District has a loan to DEQ, the balance owed on this loan is \$191,663 at June 30, 2017. More detailed information about the District's long-term debt is presented in the notes to the financial statements.

ECONOMIC FACTORS

Property tax revenue is the main source of the District's operating revenue. The District also receives state grants. All expenses for soil and water conservation must be paid for by these sources.

FINANCIAL CONTACT

The District's financial statements are designed to give the public a general overview of the District's accountability. If you have questions about financial matters please contact the District at 221 Molalla Ave, Suite 102, Oregon City, OR 97045. The District telephone number is (503) 210-6000.

Reconciliation of Balance Sheet to Statement of Net Position

June 30, 2017

Total fund balances – Governmental Funds	\$ 1,974,066
The cost of capital assets (land, buildings and equipment) purchased or constructed is reported as an expenditure in governmental funds. The Statement of Net Position includes those capital assets among the assets of the District as a whole.	
Net capital assets	735,595
Loans receivable are reported as revenues when the payments are received in the governmental funds. The Statement of Net Position records these as assets of the District as a whole.	
Loans receivable	114,648
Property tax revenue in the Statement of Activities differs from the amount reported in the governmental funds. The District records deferred revenue for all property taxes levied but not received; however, in the Statement of Activities, there is no deferred revenue and the full property tax receivable is recognized as revenue.	
Deferred revenue related to property taxes	110,539
Accrued vacation and compensation and the net pension obligation are not due and payable in the current period and therefore are not reported in the funds.	
Accrued vacation and compensation	(66,330)
Long-term liabilities are reported as expenditures when they are repaid in the governmental funds. The Statement of Net Position records these as liabilities of the District and only records the interest expense as an expense.	
Long-term liabilities	 (191,663)
Net position	\$ 2,676,855

Statement of Revenues, Expenditures and Changes in Fund Balances– Governmental Funds

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances to Statement of Activities

For the Year Ended June 30, 2017

Total changes in fund balances – Governmental Funds	\$	189,982
Capital asset additions are reported in the governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense. When assets are sold, the governmental funds report the sales proceeds as a gain. However, the net sales price above the book value is reported as a gain on the Statement of Activities.		
Current year capital outlay expenditures capitalized as additions Depreciation expense		28,769 (29,898)
Property tax revenue in the Statement of Activities differs from the amount reported in the governmental funds. In the governmental funds, which are on the modified accrual basis, the District recognizes deferred revenue for all property taxes levied but not received; however, in the Statement of Activities, there is no deferred revenue and the full property tax receivable is recognized as revenue.		4,452
		1,102
Accrued vacation is not due and payable in the current period and therefore is not reported in the funds.		(7,420)
Loans payable are reported in the governmental funds as increases in fund balance when received and decreases when paid back. When loans are made to other organizations this is reported in the governmental funds as decrease in fund balance and as an increase in fund balance when they loans are paid back to the District. However, in the Statement of Activities, loans payable are reported as liabilities and loans receivable as assets.		
Receipt of loan funds		(45,624)
Advances under loans receivable		48,430
Receipts under loans receivable	-	(47,546)
Change in net position of governmental activities	\$	141,145

Notes to Financial Statements

June 30, 2017

1. Summary of Significant Accounting Policies

Reporting Entity

Clackamas Soil and Water Conservation District (the "District") is a municipal corporation organized under the general laws of the State of Oregon established to provide technical and practical services designed to conserve and use resources sustainable today and for future generations. The District works with landowners who have a personal commitment to improving the conservation of their property, including development and delivery of designs and improvements in drainage, protection of water from animal nutrients, mud and manure management, weed control, sustainable crops, and erosion protection.

The District is governed by a seven-member Board of Directors, which is elected by Clackamas County residents. Officers are elected by the Board of Directors, which is authorized to transact all business on the District's behalf.

The District is a political subdivision of the State of Oregon. The reporting entity consists of the primary government, any organization for which the primary government is financially accountable, and any other organizations that, because of the nature and significance of their relationship with the primary government, may not be excluded from the financial reporting entity.

All significant activities have been included in the basic financial statements. The District is financially independent of other state and local governmental units. Based on these criteria, the District is not a component unit of another entity, nor is any other entity required to be included in the financial statements of the District.

Measurement Focus and Basis of Accounting

The Statement of Net Position and the Statement of Activities have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants are recognized as revenue as soon as all eligibility requirements have been met.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the governmental activities of the District in one column. The statement of activities demonstrates the degree to which expenses are offset by program revenues. Items not properly included among program revenues are reported as general revenues.

The statement of activities reports the District's activities by function. The District's sole function is soil and water conservation. The statement of activities demonstrates the degree to which the expenses of each function are offset by program revenues. Program revenues include 1) charges to those who use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operating requirements of a particular function. Interest income is reported as general revenues.

Notes to Financial Statements - Continued

June 30, 2017

1. Summary of Significant Accounting Policies (continued)

Separate fund financial statements are also provided. The governmental fund financial statements are maintained using the accrual basis of accounting whereby revenues are recorded in the accounting period in which they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this period, the governmental considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Fund Accounting

The District has the following major funds:

- The General Fund accounts for all activities except those required to be accounted for in other funds. The principal revenue sources are property taxes, grants and interest.
- The Conservation Grant Fund is a special revenue fund to account for special projects related to conservation. The Fund Balance in this fund is committed for conservation projects.

The District also reports the following non-major funds:

- The Conservation Loan Fund is a fund to account for loans to landowners related to conservation. The Fund Balance in this fund is committed for conservation loans.
- The Building Reserve Fund is a capital project fund used to account for resources restricted for the acquisition or construction of specific capital items or projects. The Fund Balance in this fund is assigned for future capital projects.
- The Working Lands Legacy Fund focuses on the long-term conservation of working lands: farms, fields and forests.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or regulations of other governments. Net assets are classified in the following three categories:

Invested in capital assets, net of related debt – consists of capital assets net of accumulated depreciation, reduced by the outstanding borrowings of any debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets – consists of net assets with constraints placed on them by entities outside of the District. At June 30, 2017 the District had no restricted net assets.

Unrestricted net assets – all other net assets that do not meet either of the criteria above.

Notes to Financial Statements - Continued

June 30, 2017

1. Summary of Significant Accounting Policies (continued)

Fund Equity

The District follows the guidance in GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. Under this standard, fund balances are classified as nonspendable, restricted, committed, assigned, and unassigned.

- <u>Nonspendable fund balance</u> represents amounts that are not in a spendable form.
- <u>Restricted fund balance</u> represents amounts constrained to specific purpose by their providers (such as grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level authority action to remove or change the constraint.
- <u>Assigned fund balance</u> represents amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.
- <u>Unassigned fund balance</u> represents amounts that are available for any purpose; these amounts are reported only in the General Fund.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Investments

The District has defined cash and cash equivalents to include cash on hand, demand deposits and short term investments with original maturities of three months or less. Investments maintained in the Oregon Local Government Investment Pool (LGIP) are carried at cost, which approximates fair value, and are classified as a cash equivalent. Fair value of the investments in the LGIP are the same as the value of the pool shares. The carrying amount of the cash and cash equivalents approximate fair value due to the short term maturities of these instruments.

The insurance and collateral requirements for deposits are established by banking regulations and Oregon law. Federal Deposit Insurance Corporation (FDIC) insurance of up to \$250,000 applies to total deposits at each financial institution.

Notes to Financial Statements - Continued

June 30, 2017

1. Summary of Significant Accounting Policies (continued)

Property Taxes

In the government-wide financial statements uncollected property taxes are recorded on the Statement of Net Assets. In the fund financial statements property taxes that are collected within 60 days after year end are considered measureable and available and, therefore, are recognized as revenue. The remaining balance of uncollected property taxes is recorded as deferred revenue on the Governmental Funds Balance Sheet because it is not deemed available to finance operations in the current period.

Real property taxes are levied and attached as an enforceable lien on property as of July 1 of each fiscal year. Real property taxes may be paid in full by November 15 with a 3% discount, or paid in three equal payments on November 15, February 15, and May 15. Clackamas County, Oregon, makes all assessments of property value and levies and collects property taxes for all levying districts within the County. The District considers all property taxes to be fully collectible and therefore, no allowance for uncollectible property taxes has been made.

Capital Assets

Capital assets are stated at historical cost. Donated assets are recorded at their estimated fair market value at the date of donation. The District defines capital assets as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of one year. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Furniture and Equipment	3 to 7 years
Vehicles	5 years

Accrued vacation and compensation

It is the District's policy to allow employees to accrue earned vacation and compensation pay benefits. A liability for these amounts has been recorded on the government wide financial statements because these amounts are payable when employees separate from service with the District.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as revenues and expenses reported for the periods presented. Actual results could differ from those estimates.

Transfers

The District makes transfers between funds when approved by the Board. Transfers are made from the General Fund to the Conservation Fund for conservation projects. Transfers for the year ended June 30, 2016 are presented in the fund financial statements, but have been eliminated from the statement of activities.

Notes to Financial Statements - Continued

June 30, 2017

1. Summary of Significant Accounting Policies (continued)

Subsequent Events

Management has evaluated subsequent events through December 8, 2017 which is the date the financial statements were available to be issued.

2. Stewardship, Compliance and Accountability

The District is subject to the budget requirements of state law. The resolution authorizing appropriations of each fund sets the level by which expenditures cannot legally exceed appropriations. Total personnel services, materials and services, capital outlay, debt service, interfund transactions, operating contingency and unappropriated balance are the levels of control established by resolution. The budget is adopted and appropriations are made no later than June 30th.

The detail budget document, however, is required to contain more specific detailed information for the above-mentioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriations resolution. A supplemental budget requires hearings before the public, publication in newspapers, and approval by the Board of Directors. Original and supplemental budgets may be modified by the use of appropriations transfers between the levels of controls. Such transfers require the approval of the Board of Directors.

Expenditures cannot legally exceed the appropriation levels. Appropriations lapse at the end of each fiscal year. Expenditures of the various funds shown in the financial statements were within authorized appropriation levels.

3. Cash and Investments

Cash and investments of the District consisted of the following at June 30, 2017:

Cash on deposit with financial institutions	\$ 278,448
Local Government Investment Pool	1,977,487
Total	\$ 2,255,935

Deposits

The insurance and collateral requirements for deposits are established by banking regulations and Oregon law. Federal Deposit Insurance Corporation (FDIC) insurance of \$250,000 applies to total deposits at each financial institution. When balances exceed \$250,000, ORS 295.002 requires the bank depository to enter into an agreement described in ORS 295.008(2)(b) and to deposit securities pursuant to ORS 295.015(1). The Oregon State Treasurer's Office facilitates these agreements and maintains a list of qualified depositories. Well capitalized depository banks must pledge securities with a value of at least 10 percent of their quarter-end public fund deposits, unless otherwise directed by the Oregon State Treasurer. Adequately capitalized or undercapitalized bank depositories are required to pledge collateral valued at 110 percent of their uninsured public fund deposits. The securities are held by a custodian for the benefit of the State of Oregon. Any balances in excess of the FDIC insurance plus 10 percent are considered exposed to custodial

Notes to Financial Statements - Continued

June 30, 2017

3. Cash and Investments (continued)

credit risk. Custodial credit risk for deposits in the risk that, in the event of bank failure, the District will be unable to recover deposits or collateral securities in the hands of an outside party. At June 30, 2017, deposits were fully collateralized.

Investments

Oregon Revised Statutes 294.035 authorizes the District to invest in general obligations of the U.S. government and its agencies, bankers' acceptances, commercial paper rated A-2 or better by Standard & Poor's Corporation or P-2 by Moody's Investors Service, and the state of Oregon Local Government Investment Pool (LGIP), among others.

The only investments held by the District at June 30, 2017 were amounts deposited with the state of Oregon LGIP. The District's investment in the LGIP is carried at cost, which approximates fair value. The state of Oregon's investment policies used in administering the LGIP are governed by statute and the Oregon Investment Council (the Council). The State Treasurer is the investment officer for the Council and is responsible for the funds on deposit in the State Treasury. The State Treasury's investments in short-term securities are limited by the portfolio rules established by the Oregon Short-term Fund Board and the Council. In accordance with Oregon statutes, the investment funds are invested and the investments are those funds managed, as a prudent investor would do, exercising reasonable care, skill, and caution.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the risk that its fair value will decline if interest rates rise. In order to manage the interest rate risk of its investments, the District only invests in the LGIP. The LGIP has rules that require at least 50 percent of its investments to mature within 93 days, not more than 25 percent may mature in over a year, and all other investments must mature in no more than three years.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Investments in the LGIP are not required to be rated for credit risk.

Custodial Credit Risk – Investments. Custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of an investment or collateral securities in the possession of an outside party. The LGIP's portfolio rules provide that broker/dealers meet certain qualifications and that investments are delivered to and held by a third-party custodian which holds the securities in the state of Oregon's name.

Office equipment		208,415		-		-		208,415	
Total depreciable capital assets		417,142		28,769		-		445,910	
Total capital assets		1,073,737		28,769		-		1,102,506	
Less: accumulated depreciation									
Equipment		(77,856)		(5,710)		-		(83,566)	
Vehicles		(94,995)		(10,327)		-		(105,322)	
Office equipment		(164,162)		(13,861)				(178,023)	
Total accumulated depreciation		(337,013)		(29,898)		-		(366,911)	
Net capital assets	\$	736,724	\$	(1,129)	\$	-	\$	735,595	

Depreciation expense of \$29,898 was charged to Conservation expenditures during the year ended June 30, 2017.

5. Loans Receivable

The District has established a loan fund to help local residents fund projects related to conservation and improve water quality. Loan terms depend on the project being funded.

During the year ended June 30, 2017 the District loaned \$45,624 to local residents under the terms of this loan fund and received \$44,739 in repayments of principal and \$2,807 of interest.

	_	Balance ly 1, 2016	Ne	w Loans	Re	epayments	Balance e 30, 2017
Loans receivable	\$	113,763	\$	45,624	\$	(44,739)	\$ 114,648

5. Loans Receivable (continued)

The schedule of future amounts to be received is as follows:

Year ending June 30,		Principal					
2018	\$	41,529					
2010	Ψ	22,941					
2020		21,261					
2021		15,978					
2022		12,939					
Total	\$	114,648					

6. Long Term Liabilities

Oregon Department of Environmental Quality

The District has a revolving loan agreement with Oregon Department of Environmental Quality (DEQ). Under the terms of the loan the District may draw up to \$250,000 to loan to local residents to fund projects to improve water quality. The loan accrues interest at 2.63% and repayment only begins after the final loan request is made by the District. If the District complies with all requirements of the loan agreement the DEQ will forgive 30% of the loan, together with any interest accrued on that amount.

During the year ended June 30, 2017 the District drew \$45,624 under the loan agreement, bringing the total drawn to \$191,663. The additional loan draw was not finalized during the year ended June 30, 2017.

	_	Balance y 1, 2016	New Loans		Repayments		Loan Forgiveness		Balance June 30, 2017		
DEQ	\$	146,039	\$	45,624	\$	-	\$	-	\$	191,663	

Notes to Financial Statements - Continued

June 30, 2017

6. Long Term Liabilities (continued)

Future payments under the terms of these loans are follows:

Year ending June 30,	-	Principal	Interest		Total
2018	\$	6,817 \$	12,025	\$	18,842
2019	т	13,903	3,571	Ŧ	17,474
2020		14,271	3,203		17,474
2021		14,649	2,825		17,474
2022		15,037	2,437		17,474
2023-2027		81,362	5,999		87,361
Thereafter	-	45,624			45,624
Total	\$	191,663 \$	30,060	\$	221,723

No interest expense has been recorded as a direct function expense for the year ended June 30, 2017.

7. Leases

The District leases office space under the terms of an operating lease. The lease requires monthly payments and expires on February 28, 2019. The District may terminate the lease on or after March 1, 2017 by giving 120 days written notice. Total rent expense under the term of this lease agreement was \$82,869 for the year ended June 30, 2017.

Future requirements under the terms of these operating leases are as follows:

Year ending June 30,

2018 2019	\$ 81,442 54,295
Total	\$ 135,737

Notes to Financial Statements - Continued

June 30, 2017

8. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the District has purchased insurance coverage. No losses were incurred during the prior three years ended June 30, 2017 that exceeded the District's insurance coverage.

9. Retirement Plan

The District sponsors a 457(b) retirement plan allowing eligible employees to contribute a portion of their compensation to the Plan. The District contributes 7.5% percent of the employees' compensation to the Plan. During the year ended June 30, 2017 the District contributed \$65,888 to the Plan.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Independent Auditor's Report Required by Oregon State Regulations

To the Board of Directors Clackamas County Soil and Water Conservation District Clackamas County, Oregon

We have audited the basic financial statements of Clackamas Soil and Water Conservation District (the District) as of and for the year ended June 30, 2017 and have issued our report thereon dated December 8, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether Clackamas Soil and Water Conservation District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Revised Statutes as specified in Oregon Revised Statutes as specified in Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of Public Funds with Financial Institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment
- Insurance and Fidelity Bond Coverage
- Budgets legally required (ORS Chapter 294)
- Public Contracting and Purchasing
- Programs Funded From Outside Sources
- Authorized investment of surplus funds (ORS Chapter 294)

Richard Winkel, CPA

PO Box 91637 Portland, OR 97291

tel: (503) 332-6750 fax: (888) 739-8185 email: rwinkel@winkelcpa.com In connection with our testing nothing came to my attention that caused us to believe Clackamas Soil and Water Conservation District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Clackamas Soil and Water Conservation District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report is intended for the information of the board of directors and management of Clackamas Soil and Water Conservation District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Kichard Windel, CPA

December 8, 2017
