

What is hitchhiking on YOUR boots?

Clean your boots after you hike!

Each year seeds of invasive weeds are spread on boots, tires, and animals.

Do not let these weeds reach your property!

Protect your tree farm by cleaning your boots, vehicles, tires, and pets.

*Don't spread where you tread!*

CLACKAMAS SOIL AND WATER

CONSERVATION  
DISTRICT

Good dirt. Clean water.

Find out more about invasive weed control.
